

Choose from the following programs:

FOLLOW THE FLOW; the Water Cycle—*Water has been on this earth for millions of years – just in different forms.* (K thru 2nd, 3rd thru 6th)

There is no beginning and no end to the constant journey of this precious resource we call water. Thru demonstration and hands on activities (water cycle bracelet or water mobile) students learn the different forms that water takes on.

WATER, WATER, EVERYWHERE - *We cannot live without water. It is all around us.*

(Preschool thru 1st only)

What is water? How does it change form? Why it is so important? These are some of the basics explained using hands on activities and the Willy the Water Drop felt board play.

WATER ABC'S - Water Basics - *Water is a precious resource. It relates to almost every living & nonliving thing on this earth.* (K thru 2nd, 3rd thru 6th)

Did you know that just about everything around us needs water in some way? It might surprise you just how much we use water everyday. The importance of water is demonstrated and shown in video before students make water bracelets or rain sticks.

THE MAGIC OF WATER - With the Water Wizard—*Learning about the magic of nature's water cycle.*

(K thru 2nd, 3rd thru 6th)

Be amazed by our very own Water Wizard while learning thru magic about the forms of water, the water cycle and other basic water facts. A video and hands on activity are part of the fun.

WHERE'S MY WATERSHED? - *Are you standing on top of your water supply?*

(3rd thru 6th only)

Where does your drinking water come from? How does Folsom Lake fill up? These and more questions are answered while creating our own American River watershed after watching a video about what watersheds are and how they work.

EVERY DROP COUNTS - Water Conservation—*Conservation of our water is critical to our future.*

(K thru 2nd, 3rd thru 6th)

Now, more than ever, the importance of using one of our most valuable resources wisely is demonstrated thru video and fun hands on activities like "Pass the Water".

WATER, POWER & MORE Folsom Dam & Powerplant - *Folsom Dam is an important part of peoples lives.*

(K thru 2nd, 3rd thru 6th)

Learn the history, functions and importance of the dam, how the water in the American River is managed and the different ways it is used while traveling thru the Central Valley before reaching the Pacific Ocean. A video tour and model of the dam help to relay the story.
